About the Role

As the Production Planning Associate Director in the cutting-edge field of Radioligand Therapy at Novartis, you'll lead critical integrations of IT and business processes, impacting global healthcare outcomes. This role offers the unique opportunity to drive innovative strategies, contribute to life-saving treatments, and be a part of a transformative healthcare journey.

Role Responsibilities:

- **Strategic Integration:** Align IT capabilities and business processes within the Radioligand Therapy manufacturing sector.
- **Operational Leadership:** Oversee production planning, system optimization, and process improvement initiatives.
- **Stakeholder Collaboration:** Engage with various stakeholders to ensure the alignment of operational strategies with business goals.
- **Compliance and Quality Assurance:** Ensure systems and processes comply with regulatory standards and quality requirements.
- **Team Management:** Lead and develop cross-functional teams, fostering a culture of innovation and efficiency.

Diversity & Inclusion / EEO

We are committed to building an outstanding, inclusive work environment and diverse teams representative of the patients and communities we serve.

Role Requirements

- **Education:** Bachelor's or Master's degree in a relevant field such as IT, Computer Science, Business Administration or similar
- **Experience:** Significant experience in the pharmaceutical industry, especially in system integration and high-level project management.
- **Technical Skills:** Advanced knowledge in data analysis, ERP systems, and pharmaceutical IT system management.
- **Leadership Skills:** Strong leadership and communication skills, with a proven track record of managing complex projects and teams.
- **Language:** English

**Please note that this role will have the internal job title of 'Business Analyst' to align with company cataloging*

Why Novartis?

At Novartis, with Radioligand Therapies (RLT), our mission is to transform lives through radioligand therapy in nuclear medicine to fight several leading types of cancer. How will we continue to be on the cutting edge of medicine?

We believe new groundbreaking solutions can be found at the intersection of medical science and digital innovation. That a diverse, equitable and inclusive environment inspires new ways of working.

We believe our potential can thrive and grow in an unbossed culture underpinned by integrity, curiosity and flexibility. And we can reinvent what's possible, when we collaborate with courage to aggressively and ambitiously tackle the world's toughest medical challenges. Because the greatest risk in life, is the risk of never trying!
